

Aaron C. Edmiston

Full-Stack Developer

I combine the most current software engineering skills with the communication skills of a language teacher and the commercial acumen of a New York Real Estate Agent with two supporting business degrees.

Some Exposure: Cypress, Jest, Docker, Kubernetes, Animation (Greensock & Three.js), Graphing (d3.js), Realtime (WebSockets).

TECHNICAL ACHIEVEMENTS

Children's Literacy [Hackathon](#)

June 2021

The teams were tasked with creating a web app to make children's learning interactive && fun. They could take any technical approach they wanted && had to present their creative solution to the judges by 5 pm that same day.

Code-Pairing Supplemental Program

January - August 2021

As an initiator in my software engineering course, I saw an opportunity for all students to work together outside of class in a code pairing program. Each week, I assigned a student to a new person to work with to learn how to collaborate, see how other students write code, && help each other out if possible.

LEISURE ACTIVITIES

Traveling, Exploring New Cities and Countries, Listening to Music, Exercising, Dancing, Camping, Reading, Continuous Learning, Taking Photos, Cycling, Eating New Foods, Cooking

Aaron C. Edmiston

**** I have the right to work in the USA && the UK.**

PROJECTS

[Nomader.world](#)

June - September 2021

Nomader is a concept to deployment, full-stack project that utilized Skyscanner's API for currencies and discount flight details. Although Skyscanner has recently discontinued its open-source API, the front end is still a good representation of what the site was when it was fully functional.

Skills used: [React](#), [Node](#), [Express](#), [APIs](#), [Axios](#), [Send in Blue](#), [MySQL](#), [Heroku](#), [Web Hosting](#), [JavaScript](#), [CSS](#), [HTML](#)
